### Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Normal Operations	Normal Operations	Normal Operations

#### Summer Excessive Heat Conditions Preparation:

The California Governor's Office of Emergency Services (Cal OES), in partnership with the National Weather Service, is closely monitoring potential excessive heat conditions that will warrant activation of Phase II/III of the state's Extreme Temperature Response Plan. Please review your local response plan in preparation for an extreme heat event as we enter the summer months.

#### PG&E Public Safety Power Shutoff (PSPS) & Wildfire Full Scale Exercise

Cal OES will be participating in the PG&E Public Safety Power Shutoff (PSPS) & Wildfire Full Scale Exercise the week of June 13-17, 2022 in preparation for the upcoming PSPS season. PSPS notifications will be made to existing key agency partners during the exercise period to test the notification method and capabilities. No action is required for the recipient. There will be external agencies actively participating in the exercise at various levels in addition to a large number of operational areas and agencies observing.

# **COVID-19 SUMMARY**

## **Coronavirus Disease 2019 (COVID-19)**

On 03/02/20 at 0700 hours, the Cal OES State Operations Center (SOC) activated in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

## **SMARTER Plan**

On 02/17/22, Governor Newsom unveiled the "[California SMARTER Plan: The Next Phase of California's COVID-19 Response](#)". The plan emphasizes continued readiness, awareness and flexibility and helps ensure California can maintain its focus on communities that continue to be disproportionately impacted and stay prepared to swiftly and effectively respond to emerging COVID-19 variants and changing conditions.

Regional Operations Center

Western Region

Sunday, June 12

- A significant cooling trend is expected across the state Sunday into Monday, with temperatures returning to near or even slightly below normal for mid June
  - One more day of high heat risk concerns is expected Sunday across interior portions of southern California
  - Temperatures will see another significant warming trend for midweek, particularly Wednesday and Thursday for many inland areas, with additional heat risk concerns developing, though temperatures do not look to be quite as hot as those seen recently
- Gusty winds will develop for many areas along and east of the Sierra as well as the Central Valley and inland southern California Sunday into Monday, which bringing elevated to locally critical fire weather conditions
  - The most widespread and strongest winds are forecast along and east of the Sierra on Sunday, with gusts of 40 to locally 50 mph
  - Elevated to locally critical fire weather conditions will continue through much of the upcoming week, especially across for southern California
- Periods of showers and occasional thunderstorms will continue across far northern California and the northern Sierra through Sunday night, with otherwise mainly dry weather expected across the state through the coming week
  - A few storms could produce small hail and gusty winds
  - Rainfall amounts will generally be light, but localized amounts nearing 1 inch are possible across the northern Sierra and close to thunderstorms
  - No widespread significant runoff concerns are expected with this rainfall
